

# The AUGSBURG INNOVATIONSPARK with the TECHNOLOGIEZENTRUM AUGSBURG

**Our goal: we accelerate innovations in production companies to create and maintain added value and jobs and to promote resource efficiency and climate protection!**

## General Information

The 70-hectare **Augsburg Innovationspark** with its **Augsburg Technology Center** is a unique business development project to create excellent research and development conditions for companies in the **future fields** of aerospace, lightweight construction, carbon/fiber composites, mechatronics & automation, digitization, hydrogen technology, resource efficiency and research facilities. **15 technical-scientific research institutions** have already settled or are currently under construction (ISSE, AMU, ITA, FZG, HS Augsburg, DLR, DLR-SG, Fraunhofer IGCV, MRM...). 3 large real estate projects by investors have also been completed, 3 are in the process of being created. Almost all of the commercial sites of the first development phase of the park have been used, the second phase is already in the development process. The heart of the park is the Augsburg Technology Center. The technology center is a multifunctional building with **laboratory, technical center, office and event space** that can be used for exchange and development projects by companies. The whole thing is supported by an extensive additive service package and by networking with over 60 "knowledge sources" in the economic area.

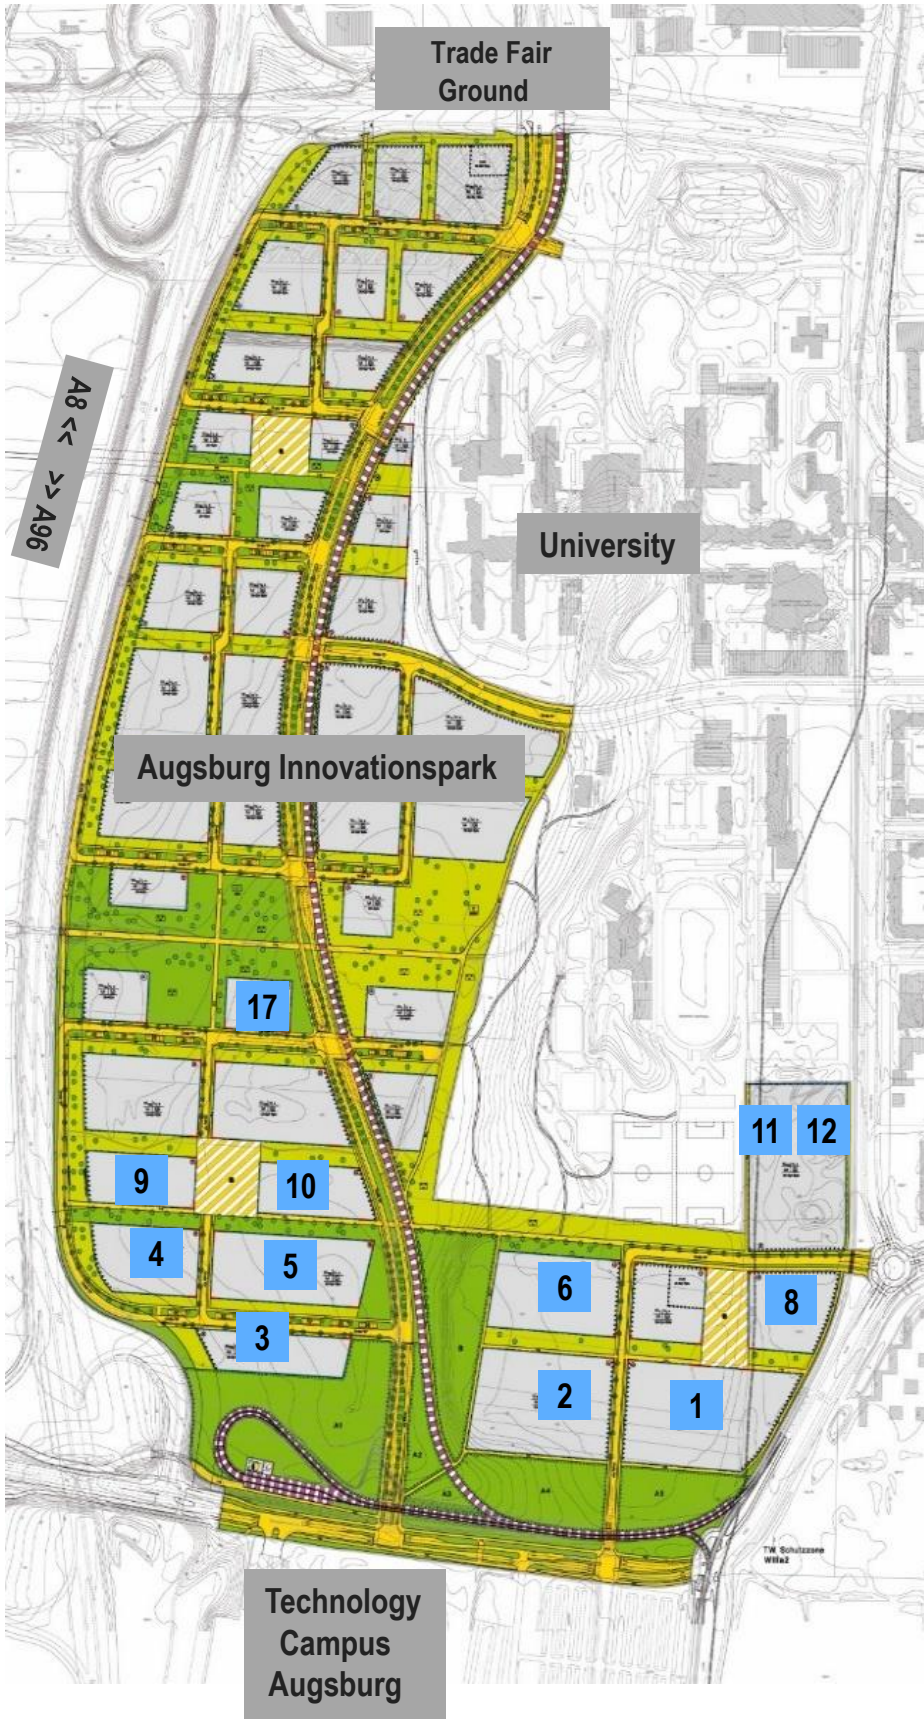

## Location Advantages

- Best quality of life: a wide range of cultural and leisure activities, attractive prices, high safety and environmental quality
- Master plan with the aim of developing a district with an outstanding quality of life and work
- Attractive campus with green spaces, restaurants, shops, cultural, social and sports facilities
- Optimal transport connections and short distance to the city center /railway station (20 minutes)
- In walking distance: university campus
- Attractive range of rental space (technical center, halls, offices, event rooms) or commercial sites
- Best networking of research and companies
- Already successful local players present, e.g. German Aerospace Center (DLR), Fraunhofer Gesellschaft, ITA and around 60 companies
- World market leaders around: Airbus, KUKA, MAN, MT Aerospace, Premium AEROTEC, Renk, SGL Carbon, Faurecia, UPM Kymene...
- Efficient sponsors of the park and the Augsburg Technology Center (City of Augsburg, district of Augsburg) and many supporters (Free State of Bavaria, IHK and HWK, Uni/Hochschule Augsburg, Regio Augsburg Wirtschaft and many more)

# Current picture impressions of the Augsburg Innovationspark

**9** = Lot numbers are figured on page 2. Lot numbers which are not listed are not yet built.

**1**

## Technologiezentrum Augsburg

Event location, event rooms, technical hall, laboratories, offices, Augsburg Innovationspark Management

**2**

## Fraunhofer IGCV Building 10

Research institute, processing technology department

**3**

## Der Innovationsbogen (under construction)

Offices and labs

**4**

## Weitblick 1.7

Offices, labs, child care, event location

**5**

## DLR SG (under construction)

Institute of test and simulation for gas turbines

## Current picture impressions of the Augsburg Innovationspark

6

**MRM**

**Institute of Materials Resource Management**

Research areas materials & resources, production & software shared teaching infrastructure and cooperation area at the University of Augsburg with Technical University Augsburg

8

**Q 40 local supply**

Hotel, supermarket, fitness centre, bakery, parking

10

**Baramundi Software AG**

IT company

Development and administration

11

**DLR / ZLP**

German Aerospace Center,

Center for lightweight production technology

12

**Fraunhofer IGCV Building 2**

Research Institute

Carbon Composites

## Current picture impressions of the Augsburg Innovationspark

17

### **A Town High (under construction)**

8 levels of boarding house apartments and 7 levels of office space, multi-storey car park and probably a restaurant

9

### **„FCA/Fa. Leimbau“ (under construction)**

Kindergarten with an innovative concept for combining early childhood education and exercise and a training center (technical school)
